
| Table of Content | Pages |
|--|--------------|
| Analysis Image-Based Automated 3D Crack Detection for Post-disaster Bridge Assessment in Flyover Mall Boemi Kedaton | 1-9 |
| Comparative Story Drift Analysis of High Rise Building Structure between X-Braced Frame and Two Story X-Braced Frame | 10-19 |
| Digital Rock Physics Investigation in Outcrop Sandstone Reservoir | 20-25 |
| Feasibility Study of Shallot Production in Financial Aspect in Central Lampung (Case study: Kota Gajah) | 26-34 |
| Synthesis, Characterization And Computational Studies Of Novel (E)-N-(3,4-Dimethoxybenzylidene)naphthalen-1-amine | 35-39 |
| The Effects of Development Program in ITERA Dormitory for Student Learning Achievements in First Year Stage Course | 40-46 |
| A systematic survey of plant biodiversity study within the land of Institut Teknologi Sumatera (ITERA) | 47-52 |
| Autodrive Land Vehicle Control by Using PID | 53-59 |
| Bedrock Investigation using Resistivity Method as an effort to Provide Subsurface Data at ITERA Campus | 60-70 |
| Coastal Processes and Longshore Sediment Transport along Krui Coast, Pesisir Barat of Lampung | 71-76 |
| Development of Intersection Management Strategy Due to Opening of Sumatra Toll Road | 77-83 |
| Development of Submerged Biofilter Design for Wastewater Conservation: Carbonaceous Removal Study | 84-89 |
| Study of Optical Cloaking Lenses Design for Optimizing Large Vehicle Driver's Visibility in Bandar Lampung | 90-95 |
| The Delay Simulation on Hierarchical Structure for Semi-Double Track of Railway Line Using Max-Plus Algebra | 96- 99 |

| | |
|---|----------|
| Potential Analysis of Hydro Power Plants in Pesisir Barat District, Lampung Province | 100-106 |
| Preliminary Result: Identification of Landslides using Electrical Resistivity Tomography Case Study Mt. Betung | 107- 110 |
| A graph theory approach to the dormitory room placement problem | 111- 118 |
| Analysis of Shoreline Changes on Krui Bay, West Coast of Lampung Province | 119- 125 |
| Possibility and Effects of Recycling Vinyl-Banner Waste into Fired-Clay Bricks for Home Industry in Lampung | 126- 134 |
| Robust Control of a Quadcopter Flying via Sliding Mode | 135- 143 |
| Simulation of Electric Field Distribution on Meniscus of Electrospray with Zinc Oxide Material | 144- 147 |
| Structure Behavior Analysis with Time History Levelling Method (Case Study in Building E ITERA) | 148- 161 |
| Study of Protection Structures Planning for Krui Beach, Pesisir Barat Regency, Lampung Province | 162- 168 |
| Spatial Analysis of Seismic Hazard based on Dynamical Characteristics of Soil in Kota Baru, South Lampung | 169- 175 |
| Water Conservation with Rainwater Harvesting System in Lampung Province (Case Study in State Polytechnic of Lampung Campus Area) | 176- 182 |
| Analysis of Southern Segment of Sumatran Fault Monitoring Bench Mark as Preliminary Approach in Updating Earthquake Hazard Map | 183- 191 |
| Characteristics and Mineral Content of Lampung Tengah Ironsands | 192- 196 |
| Synthesis and Bonding Analysis of Magnetite (Fe ₃ O ₄)/Silica (SiO ₂) Composite Based on Sugarcane Bagasse | 197- 200 |
| To What Extend Does The Technology Disrupstion Affect The Sale Of Smes Banana Chips Products In Bandar Lampung? | 201- 205 |
| Mineral analysis in rocks using XRD and Petrography | 206- 214 |
| Study of management and development of Observatorium Astronomi ITERA Lampung (OAIL) area: Part I | 215- 218 |

| | |
|---|----------|
| Application of the HVSR Microtremor Method for Basalt Outcrops in Tanjung Batu, Jambi | 219- 225 |
| The Influence of variation the blade distance against the cocofibers and cocopeat percentage of the coconut fruit from Jambi Area | 226- 229 |
| Land Suitability for <i>Ciplukan</i> (<i>Physalisangulata L.</i>) Using Multicriteria Analysis | 230- 232 |
